

Trip to Flower Power

Residents at Hardi Aged Care Seven Hills enjoyed a morning at Flower Power Prospect. They started the morning with a coffee and cakes at the two bird's café, then residents set their sights on the beautiful flowers out in the nursery. The residents loved looking, smelling and touching all the beautiful variety of flowers. Lifestyle staff purchased some plants to bring back to the facility and plant in our own garden. The residents are enjoying watering and looking after their new plants.
