NOTIFICATION #3 – GUILDFORD

Residents, Families and Close Friends

Dear Guildford Residents, Families and Close Friends,

I wish to provide an update on the Covid-19 situation at Hardi Guildford, following our last notification on July 29.

Pleasingly, the results of our testing on July 31 produced no new positive cases and we are awaiting the results of our PCR tests carried out yesterday, August 2.

Residents appear to be in good health and spirits, albeit missing their loved ones. Hopefully, the results of yesterday's PCR tests will return negative and we can move closer to coming out of isolation and accepting visitors.

In the meantime, Essential Visitors are permitted, following a consultation with the facility, meeting all screening protocols, including the wearing of full PPE.

No residents have tested positive in Banksia, and no staff member has tested positive. We continue to test all staff prior to the commencement of their shift.

We are in regular contact with the Public Health Unit (PHU) to seek their guidance on resident management, and once we have further results or updates we will be back in contact with you to discuss next steps.

While you are unable to visit at the current time, we ask that you please stay connected to your loved one by phone, your Hardi Connect App or through virtual visits. Virtual visits will continue to be pre-booked, through the facility.

At this time, we ask that if you have questions or concerns, please reach out via email to covid-19@hardiagedcare.com.au

Kind Regards,

Shailendra Thapa
Facility Manager
