

MOVING IN TO HARDI GUILDFORD

At Hardi Guildford, we believe that our home is your home, so we encourage our residents to personalise their space and bring in items and mementos that have meaning for them.

We provide furniture including a wardrobe, bedside table with lockable drawers and a comfortable lounge style chair.

Hardi Guildford offers permanent and respite care options, however prior to moving into Hardi Guildford, you will need to have an assessment completed by an Aged Care Assessment Team (ACAT) member.

We are happy to explain this process to you, as sometimes it can seem daunting and confusing.

HARDI GUILDFORD

"Where Enjoying Life Matters"

WE BELIEVE THAT ENJOYING LIFE MATTERS

The Hardi philosophy is that 'Enjoying Life Matters,' regardless of age or financial situation. Across its six homes, Hardi employs dedicated 'lifestyle' staff to coordinate fun activities, including celebrations that acknowledge international and cultural days, armchair travel to various global destinations, indoor bowling, bingo, musical events and it also regularly invites local performers to the home to entertain residents.

Hardi has its own mini bus, and residents enjoy regular day trips or outings on the bus for morning or afternoon teas to various destinations around greater Sydney.

Above and Left: Leisure and lifestyle activities enjoyed by residents

OUR GUILDFORD HOME

Located directly opposite Guildford Bowling Club, Hardi Guildford is home to residents from a rich variety of cultural backgrounds.

As a result, we have a range of multilingual staff who help residents to settle in to life at Hardi Guildford. Their goal is to make each resident as comfortable as possible, while still retaining their own cultural identity.

The home is close to public transport, making access easy for family and friends.

Set amongst lush gardens, Hardi Guildford spans two levels, with a mix of single and companion accommodation options available.

The large garden area is perfect for barbecues, outdoor activities, or just sitting and spending time with loved ones and enjoying the fresh air.

For residents that may be experiencing cognitive decline, our home offers a secure wing in a home-like environment. Also included in this wing is a large lounge room and sensory room.

Lifestyle staff conduct regular events for all residents including focussed activities for those with cognitive impairment.
